If any of our correspondents are out of stationery or stamps please notify us at once and we will supply them. We would ask all our correspondents to mail their communications not later than Monday.

### HIS MARKSMANSHIP IS GOOD

Night Watchman at the Ostrich Farm Thinks He Sees Burglars at the Window.

Sitting alone in the office of the Bentley ostrich farm at Melrose the other night, A. Walters, night watchman, looked up from his paper and was startled to see two faces peering at him through a window.

"Burglars!" he gasped, and drew his revolver. He sent two shots through the window, and then pursued two fleeing forms into the darkness outside, firing as he ran. His ammunition exhausted, he hastened back to the office and telephoned to the police station.

"I've just shot a burglar," he said. "Two of them tried to break into the office and I chased them. I killed one and the other owes his life to the fact that I had no more bullets. Come quick. You may catch him before he gets away."

A posse surrounded the big farm. Triumphant Walters led the sergeant to where a dark form lay huddled in a heap on the ground, a testament to his marksmanship.

A policeman bent over the form. "Why, it's an ostrich!" he exclaimed. —San Francisco Chronicle.
